

Forschungsprojektförderungen ÖKH/KG Tirol - 2012
bewilligt lt. Umlaufbeschluss 20.6.12

Nr.	Titel	Vorname	Name	Inst./Klinik	Projekttitel	bewilligt
Dissertationsförderungspreis						
	Dr.	Anne	Oberguggenberger	Department für Psychiatrie und Psychotherapie (Betreuer: Univ.-Doz. Dr. DI Bernhard Holzner)	Adherence to Endocrine Agents in Early Breast Cancer patients - methodological challenges of adherence measurement, predictors and prevalence rates	1.000,00
Kategorie A: 3 Projekte						
5	PhD	Luca	Fava	Biocenter Innsbruck	Capase activation upon extended mitotic arrest	35.000,00
9	Dr.	Karin	Jöhrer-Deym	Tyrolean Cancer Research Institute	Impact of Pim-2 expression in multiple myeloma	35.000,00
19	Mag. Dr.	Frédéric R.	Santer	Univ.-Klinik für Urologie	PARPi for prostate cancer treatment	35.000,00
Kategorie B: 25 Projekte						

Forschungsprojektförderungen ÖKH/KG Tirol - 2012
bewilligt lt. Umlaufbeschluss 20.6.12

1	Mag.	Florian	Baumgartner	Biocenter Innsbruck, Division of Developmental Immunology	MMTV/Neu-driven breast cancer in the absence of Bim	5.000,00
2	Dipl.Biol.	Florian	Bock	Biocenter Innsbruck, Division of Developmental Immunology	The role of PDCD5 in the DNA damage response	5.000,00
3	Mag.	Karin	Ecker	Biocenter Innsbruck, Division of Medical Biochemistry	Analysis of p21 ^{cip1} regulation by reactive oxygen species	5.000,00
4	Dipl.Biol.	Holger	Erb	Department of Urology, Experimental Urology	Influence of IL-4 on Prostate Cancer initiating cells	5.000,00
6	Dipl.Biol.	Sylvia	Ganghammer	Tyrolean Cancer Research Institute	Contribution of the chemokine receptor CXCR3 to B-CLL progression	5.000,00
7	DI (FH) Dr.	Judith	Hagenbuchner	Tyrolean Cancer Research Institute	PIK3IP1: a regulator of neuroblastoma metastasis?	5.000,00

Forschungsprojektförderungen ÖKH/KG Tirol - 2012
bewilligt lt. Umlaufbeschluss 20.6.12

10	Mag.	Anita	Kofler	Tyrolean Cancer Research Institute	"High Trough-Put" Functional Analysis of Candidate Genes in Glucocorticoid-Included Apoptosis of Childhood Acute Lymphoblastic Leukemia	5.000,00
11	Dr.	Heike	Larcher	Department of Pediatrics/Oncology, MUI	Effect of the Edelweiss-derivate Leoligin in childhood acute lymphatic leukemia	5.000,00
12	Dr.	Claudia	Manzl	Biocenter Innsbruck, Division of Developmental Immunology	Chk-1 suppressed cell death pathway in tumourigenesis: a new way to kill p53 mutated cells?	5.000,00
13	Dr. DI	Petra	Mikolcevic	Biocenter, Division of Molecular Pathophysiology, MUI	Genome editing in functional oncogenomics	5.000,00
14	MSc	Hannes	Moser	Biocenter, Division of Molecular Pathophysiology, MUI	Functional analysis of FZR1	5.000,00

Forschungsprojektförderungen ÖKH/KG Tirol - 2012
bewilligt lt. Umlaufbeschluss 20.6.12

15	MSc.	Eleonora	Ottina	Biocenter Innsbruck, Division of Developmental Immunology	A1/Bf11 in tumour progression of myeloid malignancies and chemotherapy resistance	5.000,00
16	MSc.	Lukas	Peintner	Biocenter Innsbruck, Division of Developmental Immunology	Examination of hematopoiesis after the loss of Fzr1	5.000,00
17	Dr.	Ines	Peschel	Biocenter Innsbruck, Division of Medical Biochemistry	Phosphorylation of p27 ^{kip1} by the receptor tyrosine kinase FLT3	5.000,00
18	Mag.	Martina	Roilo	Biocenter Innsbruck, Division of Medical Biochemistry	Identification of CIRP as a Positive Regulator of p27 ^{kip1}	5.000,00
21	Cand. med.	Thomas	Scherg-Kurmes	Internal Medicine i & V, Laboratory of Molecular Cell Biology	Influences of 3028 on LFA-1-dependent ZAP- 70 phosphorylation	5.000,00

Forschungsprojektförderungen ÖKH/KG Tirol - 2012
bewilligt lt. Umlaufbeschluss 20.6.12

22	Dr.	Bettina	Schlick	Oncotyrol GmbH and Division of Experimental Urology	The role of voltage-gated Ca ²⁺ Channel CaV1.3 in ERG rearrangement-positive prostate cancer: Potential therapeutic applications of VGCC blockers in cancer therapy	5.000,00
23	Dr.	Andreas	Seeber	Tyrolean Cancer Research Institute, Experimental Oncology Laboratory	Immunohistochemical Analysis of the intracellular and extracellular domain of EpCAM in epithelial cancer tissues	5.000,00
26	MSc	Thangavadi vel	Shanmugapriya	Tyrolean Cancer Research Institute	Role of CCR10/CCL27 in progression of Multiple Myeloma	5.000,00
27		Giridhar	Shivalingaiah	Division of Molecular Pathophysiology	Evaluation of acute depletion of APC/C activity in human tumor cell lines as experimental tumor therapy	5.000,00

Forschungsprojektförderungen ÖKH/KG Tirol - 2012
bewilligt lt. Umlaufbeschluss 20.6.12

28	Dr.	Stephan	Sickinger	Cardiac Surgery Research Laboratory	Targeting mitochondria and glycolytic pathways in colon carcinoma cells as new strategies to overcome multidrug resistance	5.000,00
29	Dr.	Sergej	Skvortsov	Department of Therapeutic Radiology and Oncology	Molecular basis for ineffective chemo- radiotherapy combined with cetuximab	5.000,00
31	Dr.	Christoph	Tripp	Univ.-Klinik für Dermatologie und Venerologie	Characterization of dendritic Cells in Melanoma Metastases	5.000,00
32	Dr.	Jonathan	Vosper	Biocenter Innsbruck, Division of Medical Biochemistry	Characterisation of the molecular targets of Statin anti-tumour activity	5.000,00
33	Dr.	Claudia	Zelle-Rieser	Tyrolean Cancer Research Institute	Signaling defects and functional impairment in T cells from chronic lymphocytic leukemia patients	5.000,00
					Gesamtbetrag:	230.000,00
